

Mohamed Anwer

Penetration Tester

📍Cairo, Egypt ✉mo7amedanwer111@gmail.com 🔗<https://linkedin.com/in/anwer0x11> ☎+201017096014

Profile:

Junior Penetration Tester with 1 year of hands-on experience at **Bl:nk Tech**, specializing in web, API, and Mobile application security testing. Certified in eWPT and eJPT with practical exposure to real-world vulnerability assessment and remediation. Passionate about offensive security and Android penetration testing, with a continuous learning mindset demonstrated through certifications, personal projects, and platforms like HexTree.

Experience:

- FlawTrack** 🔗 - **Freelance Penetration Tester (Short-Term Contract)** [Apr 2026 - Apr 2026]
Performed web, API, and mobile penetration testing using OWASP Top 10 methodology, delivering detailed vulnerability reports with PoC and remediation guidance, and collaborating with development teams to verify fixes.
- ITI** 🔗 - **Offensive Security and Penetration Testing** [Jul 2025 - Nov 2025]
Intensive Training Program (Mil-Tech 1)
- Bl:nk Tech** 🔗 - **Junior Security Engineer** [Dec 2023 - Oct 2024 | **Remote**]
Identified and documented 15+ vulnerabilities, providing clear remediation steps that improved overall security posture. Collaborated with the security team to enhance system and application security strategies, improving assessment efficiency by 30%.
Conducted pentesting on 6+ web applications, APIs, and mobile applications, using both automated and manual techniques.
- Bl:nk Tech** 🔗 - **Security Intern** [Sep 2023 - Dec 2023 | **Remote**]
Assisted in 15+ security assessments for web and API applications.
Documented 20+ findings and communicated fixes directly with development teams.

Courses & Certifications:

- Android Frida Labs** 🔗 - MobileHackingLab [Mar 2026]
Android Penetration Testing 🔗 - Hextree [Feb 2026]
eWPT 🔗 - eLearnSecurity Web Application Penetration Testing [Nov 2025]
eJPT 🔗 - eLearnSecurity Junior Penetration Testing [Dec 2022]
Web Application Penetration Testing 🔗 - Cyber Talents [Oct 2025]
Mobile Application Penetration Testing 🔗 - Cyber Talents [Nov 2025]
OWASP Top 10 🔗 - Mahara Tech [Aug 2023]
API Penetration Testing - API Security [Oct 2023]
CCNA 🔗 - Scholarship from NTI [Jun 2023]
HTML, CSS, JavaScript, NodeJS, NoSQL [Aug 2022]
Knowledge of Cloud - AWS [Nov 2023]

Projects:

- HexUnlock** 🔗 - Personal Project | Java,
Built an Android app to automate Hextree security challenge solutions with one-tap execution. Implemented key Android components such as Activities, Services, Permissions, Storage management, and WebView.
- 0x11** - Automated Tool | Bash Script,
Bash-based automated tool for reconnaissance, scanning, and vulnerability testing.
- Tastify** - SaaS For Restaurants | (Graduation Project) Grade A+
Executed security testing for *Tastify*, a SaaS restaurant management system, including API penetration testing, authorization checks, and *OWASP Top 10* vulnerability assessment.
- Library System** - Database Management System | NodeJS, NoSQL,
Built a backend Library Management System with Node.js and MongoDB to manage books, users, and loan workflows, using NoSQL database design and Docker for containerization.

Education:

- Menoufia University,** [Sep 2020 - Jul 2024]
Bachelor of Computer and Information (IT Department).

Soft Skills:

Time Management, Teamwork, Communication Skills, Collaborative, Problem Solving, Prioritization, and Adaptability.
